Raptivity Ver 6.8 includes Learning Objects on HTML5

Raptivity is well known for providing pre-build learning interactions that can be easily integrated in any learning content whether for eLearning or as an instructor lead content. With Raptivity, content developer or instructors can now include such interactions in their content within minutes whereas it will take hours with skilled personnel.

Now with the new release of Raptivity, content can be published to HTML5 format. These will allow such content to be deployed to devices where Flash is not accessible.

For more information about Raptivity or its HTML5 pack, please contact sales@inchone.com.
